DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/2/2010 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Independent claim 12 of the 12/2/10 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combinations set forth, including a printer for printing on a print media operable in at least a duplex-printing mode, wherein based on the printer being in the duplex-printing mode and a paper jam being detected, a first switch transports print media in which duplex-printing is complete out of a transport path via a first exit to a receiving receptacle and print media in which only one side of the print media has been printed continues through the transport path; and also based on the printer being in the duplex-printing mode and the paper jam being detected, a flap passes the print media in which only one side of the print media has been printed out of the transport path via a second exit to a container.

Independent claim 16 of the 12/2/10 Amendment is patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combinations set forth, including transporting print media through a first exit to a receiving receptacle not within a transport path or continuing to transport the print media on the transport path, wherein based on the printer being in a duplex-printing mode and a paper jam being detected, print media in which duplex-printing is complete is transported out of a transport path via the first exit to a receiving receptacle and print media in which only one side of the print media has been printed continues through the transport path; and also based on the printer being in the duplex-printing mode and the paper jam being detected, the print media in which only one side of the print media has been printed is transported out of the transport path via a second exit to a container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
